The weighing certificate must be signed by the delegate.

3. Wednesday's weigh in is valid for both days of the pull.
4. Starting load: Maximum load of 4,000 lbs. for all weight classes except one horse hitch and 5,000 lbs. for Free-For-All classes. Added loads in each class at the discretion of the judges depending on type of pit. At no time after weight has been increased, may it be decreased.
5. Pulling positions to be determined by the drawing of numbers just before starting of each class.
6. All teamsters to compete in a contest shall have their teams ready at the published time. All classes will close at the completion of the first hitch in each class.

10. What constitutes a hitch: One inch or more.
11. Breakdown: An actual separation, breaking or bending of equipment shall constitute a breakdown. Chains, straps or eveners not properly secured are not considered a breakdown. In event teamster and/or owner wish credit for the distance boat moved before breakage, it will constitute a hitch.

14. Unhitching after each hitch: Each team shall be disconnected from the boat and will leave the pit before entering for the next hitch.
15. Measuring: Starting point of boat shall be properly marked to indicate same starting point for all loads. The distance of each pull will be measured from the center of the boat to the most recent pin. All teams will be allowed three hitches to qualify the load.
16. The boat shall be returned to the starting pin after each hitch.
17. The boat shall be returned to the starting pin to comply with the following:

 - (c) A pull is disqualified for any rule violation.
18. The boat shall be returned to the most recent pin (*not necessarily the starting pin*) following a breakdown. It shall be the duty of the judges, prior to the start of the program, to determine if Rule 15 and/or Rules 16 and 17 will apply. Rule 15 only will apply on a plank pit.
19. In case of ties for prize-winning placing, one hitch to be taken at the end of the heat in pulling order. In event one team chooses not to hitch again, they will automatically take the lower placing OR, owners will equally divide the premiums involved and toss for their ribbons. This at the discretion of teamsters before class starts.
20. Changing teamsters: No teamster may be changed after pulling the first load in any case or class except in emergency. Then only when permitted by the judges, with the consent of a majority of the other teamsters in the class.
